Military Protocol 101 for New Spouses

<http://www.military.com/spouse/military-life/newbies-and-brides/military-protocol-101.html>

Although intended for new spouses, much of this information is useful to anyone working with the Military for the first time.

Types of Military Libraries

Libraries within the Department of Defense reflect the same range of specialization that is found in non-military libraries: public, academic, and special.

Military Librarians Checklist

General Libraries may also be called Base, Post, or MWR Libraries; they are most like Public Libraries but with a different customer base.

There are several Academic Libraries in each of the Services, ranging from the Academies (4-year College Degree) to Senior Service Schools (Masters Degrees).

Special Libraries support their organizations' missions, and include Medical, Scientific/Technical, Historical, Legal, and more.

The Department of Defense Education Activity operates schools (and school libraries) at overseas bases, as well as a few stateside.

Consolidated libraries combine 2 or more types of libraries.

Personnel Systems for DOD Civilians

All government personnel systems are regulated by OPM, the Office of Personnel Management. The majority of government employees are in the GS (General Schedule) system. In addition, the DOD has other options.

Many General Libraries are under NAF (Non-appropriated Fund) pay bands.

Academic Librarians may be considered "Title 10" (excepted service) employees; the majority of others are either "Title 5" employees (GS, competitive service) or NAF.

A number of organizations (mostly Science & Technology or Research-related) also have their own pay bands, often referred to as "lab demo" systems.

Non-supervisory Library staff may belong to a Union.

OPM Pay & Leave page

<https://www.opm.gov/policy-data-oversight/pay-leave/>

Occupational Series

OPM places Librarians in the Occupational Series 1400, "Library & Archives Group." Most Librarians will be in the 1410 (Librarian) or 1412 (Technical Information Services) series. Library Technicians (support staff) are in the 1411 series.

<https://www.opm.gov/policy-data-oversight/classification-qualifications/general-schedule-qualification-standards/1400/librarian-series-1410/>

<https://www.opm.gov/policy-data-oversight/classification-qualifications/general-schedule-qualification-standards/1400/technical-information-services-series-1412/>

Position Descriptions

A position description or "PD" is a statement of the major duties, responsibilities, and supervisory relationships of a position. In its simplest form, a PD indicates the work to be performed by the position. The purpose of a PD is to document the major duties and

Military Librarians Checklist

responsibilities of a position, not to spell out in detail every possible activity during the work day.

Army's FASCLASS, searchable position descriptions

OPM Pathways program (Students & Recent Graduates)

<https://www.usajobs.gov/Help/working-in-government/unique-hiring-paths/students/>

Check with your personnel office for assistance in hiring an Intern through the Pathways program.

Mission Essential

Functions that are determined to be critical activities are defined as the organization's essential functions. Positions that are designated as mission essential must report to work when other employees are released (for example, bad weather).

Federal Labor & Standards Act (FLSA)

The FLSA establishes minimum wage, overtime pay, recordkeeping, and youth employment standards affecting employees in the private sector and in Federal, State, and local governments. Exempt employees may receive comp time (compensatory time) instead of overtime.

Government Budgeting

The Federal Government works on a Fiscal Year (FY) calendar, which begins 1 October and ends 30 September. Some types of funds can carry over from year to year, but not all.

Overview of the Budget Process

<https://www.nationalpriorities.org/budget-basics/federal-budget-101/federal-budget-process/>

Program Objective Memorandum (POM) / Budget Formulation

<https://dap.dau.mil/acquipedia/Pages/ArticleDetails.aspx?aid=79420a26-7a89-4e94-aad2-6d5d61bb7511>

Appropriation Categories

Also called “color of money.” Funds provided for one purpose cannot be used for another purpose. Libraries are generally funded with O&M (Operations & Maintenance), but may also receive RDT&E (Research, Development, Test & Engineering) funds. O&M funds generally do not carry over from year to year (1-year funding). Other fund types may be no-year or multi-year funds.

<http://www.acqnotes.com/acqnote/acquisitions/appropriation-categories>

Types of Funding

<https://www.federalpay.org/article/fund-types>

APF: Within the federal government Appropriated Funds refer to moneys allocated by legislation passed by Congress and signed by the President. Appropriated Funds are usually specified in Congress's yearly budget or continuing resolution.

NAF Libraries are funded with non-appropriated funds; these funds are received locally through MWR.

Military Librarians Checklist

LIBRARY REGULATIONS & POLICIES

The Department of Defense publishes Regulations and Instructions for every activity, including Libraries. They are generally based on Public Law and OPM Regulations. The major ones for each service are listed below. It is important to keep older versions, for comparison as well as understanding the original source.

Army

The Army Library Program, AR 25-97

http://www.acq.osd.mil/dpap/ccap/cc/corhb/Files/Contractor_Relationship/Guide%20for%20Gov-Ktr%20Relationship.doc (Air Force)

Records Management

Every document produced by Federal employees may be a record. The National Archives controls what is a record, and when it can be destroyed. Library holdings are specifically declared non-records, but documents relating to running the library are records.

There are separate schedules for personnel files, budget & acquisition files, and more. Contact your local Records Manager for your specific requirements.

General Records Schedule for Library Records

<https://www.archives.gov/records-mgmt/grs/grs04-4.pdf>

Annual Statistics

Each service has its own format for collecting statistics. At a minimum, an annual report will include holdings, services provided, and funding. The report will be consolidated at the Command and Service level to give an overall picture of the libraries.

Academic and Special libraries may have additional statistics to collect for their Command.

COMPETENCIES

Competencies have been established by a number of professional organizations to aid librarians in reviewing and improving their knowledge, skills, and abilities. Having a concrete grasp of these competencies will not only contribute to job success, but will assist in accomplishing mission requirements of the organization. Competencies encompass both personal and professional proficiencies related to librarianship.

STANDARDS

Library Standards

Standards act as a guideline to improve the quality of library services by assessing and improving the quality of information management. Standards set by various organizations provide the foundation to ensure library resources and services effectively meet the knowledge- based information needs of organizational staff.

ALA Standards, Guidelines, and Documents

<http://www.ala.org/tools/guidelines/standardsguidelines>

Military Librarians Checklist

Accreditation Standards

Academic Libraries are included in the School's Council for Higher Education Accreditation.

Medical Libraries (especially Hospital Libraries) are included in the Joint Commission on Accreditation of Healthcare Organizations (JCAHO).

Other Types of Standards

Depending on where you work, you may need to be familiar with many other types of standards.

Information Security / Cybersecurity

Building standards

ACQUISITIONS & COLLECTION DEVELOPMENT

Each agency within the federal government has unique regulations regarding procurement. Although you must follow the regulations using authorized government sources and contracting, the FEDLINK (Federal Library & Information Network) Program was created to help librarians, contracting officers, and finance staff save time, effort and money when buying and using commercial online services, books, periodicals, and other library and information services.

Military Education Research Library Network (MERLN)

MERLN is a consortium of military education research libraries working together to provide access to a variety of unique resources for the use of researchers and scholars.

<http://ndu.libguides.com/merln>

MENTORING AND NETWORKING

Mentoring and networking are two ways to share our expertise and increase our connectivity. Mentoring relationships enhance an individual's career development, whereas networking builds professional contacts. Participating in library associations at the local, regional and national levels develops your professional network.

Service Listservs

The Army, Navy & Air Force all have listservs for members only. Contact your Command or Service Librarian for instructions on access.

STRATEGIC PLANNING

Strategic planning is a vigorous analytic and investigative process that allows organizations to forecast and predict the near future. The planning process permits administrators to take a closer look at prioritizing resources, human capital and finances. Value can be added to the strategic plan by documenting costs and benefits using return on investment (ROI) as a proactive measurement tool. Strategic planning provides the framework for administrators to evaluate the library's contribution to overall support of the organizational mission and goals.

KNOWLEDGE MANAGEMENT

Knowledge management (KM) is a conceptual framework that is used in countless ways throughout federal organizational structures. The Handbook of Federal Librarianship defines KM as a “discipline dedicated to more intentional means of people creating and sharing knowledge--data, information, and understanding a social context--to perform the right organizational and business actions.” Today, federal librarians are embracing the challenges and opportunities of KM by working together with other organizational structures to achieve common objectives and goals.

AMRDEC SAFE Send (CAC Required)

Safe Access File Exchange (SAFE) is designed to provide U. S. Army Aviation and Missile Research Development and Engineering Center (AMRDEC) and its customers an alternative way to send large files that exceed email limits.

<https://safe.amrdec.army.mil/SAFE/>

Federally Funded Research & Development Centers (FFRDC)

Federally funded research and development centers (FFRDCs) have evolved from research facilities established to meet the special needs of World War II. These Centers receive their primary funding from one or more Federal Agencies. Primary activities include one or more of the following: basic research, applied research, development, or management of R&D.

<https://www.nsf.gov/statistics/ffrdclist/>
